Excisions: Excisions Recommended And Made

Reasons for excisions:

The publication is a DVD comprising a sexually explicit feature as well as a number of shorter components. Parts of the first scene are to be excised given the high degree to which the scene degrades, dehumanises and demeans a woman participating in sexual activity. The woman in this scene is presented as a collection of orifices and the man's attitude towards her is dismissive and contemptuous.

The distributor agreed to the excisions and in compliance with this, submitted another version of the DVD. In this version all recommended excisions have been made to the satisfaction of the Classification Office. While re-authoring the DVD the distributor made several alterations to the extra components, but nothing that would affect the DVD's classification.
